## EASY AND SAFE BOATING IS BEST

What could be better than a lovely, carefree day on the water? Our popular modern boats – designed and manufactured in Norway since 1959 – are known for their build quality, their practical design and solid construction, and their user-friendliness. Pioner offers no-nonsense, reliable, robust and environmentally friendly models to suit every taste. Looking for a boat for the coastline or a mountain lake? For adults or young people? For beginners or more experienced boat users? For leisure, professional use or tourism?

Try a Pioner and experience real boating fun!

## STRONG MATERIAL

Pioner boats are rotationally moulded in polyethylene. The production method and the boat structure make the boats highly robust and durable. Pioner boats can be hauled up onto beaches and rocks.

## MINIMAL MAINTENANCE

The boats require minimal maintenance, giving you more time to enjoy easy boating. Should your Pioner become damaged, repairs are easily arranged.

## LONGEVITY

Pioner boats are made from a plastic material containing UV stabilisers, which prevent the colour from fading and the material from degrading over time.

## STABILITY

Pioner boats are built for stability and safety. They have a double-hull design that glides through the water and provides excellent buoyancy, keeping users safe both when stationary and when on the move.

## SAFETY

Det Norske Veritas Germanischer Lloyd (DNV-GL) undertakes independent third-party inspection and certification of Pioner's boat models. So Pioner users can enjoy their boating, confident in the vessel's safety.

## RECYCLABLE

Polyethylene is an environmentally friendly material which is 100% recyclable. Any materials surplus to boat production are reused in other products. The production method too is environmentally sustainable. Pioner is the green choice.

## BUILDING QUALITY BOATS IN NORWAY FOR 60 YEARS

We have been designing and building Pioner boats at our Bjørkelangen factory in Norway since 1959. Over the years we have sold more than 350,000 boats to customers worldwide.

Pioner is proud to be one of Europe's leading boat brands. Our range currently consists of 14 models, all of them equally suited to freshwater and saltwater boating.

In Norway our boats are sold through a nationwide network of more than 80 dealers, with over 50 more dealers and importers across Europe. We are pleased to work with leading marine engine suppliers such as Yamaha, Mercury, Honda, Tohatsu, Suzuki and Evinrude.

# PIONER - FOR AN EASY BOATING LIFE

## PIONER MAKES BOAT OWNERSHIP A PRACTICAL OPTION.

The popular Pioner range of boats are rotationally moulded in polyethylene and built for demanding conditions. They will withstand rough treatment, require little maintenance and last a lifetime. We pride ourselves on our ability to make safe products of premium quality. We are committed to protecting the environment and our natural surroundings, so Pioner's modern boats are recyclable.

## A PIONER BOAT HAS MANY ADVANTAGES:

### ROBUST

Pioner boats will withstand rough treatment, are user friendly, require little maintenance and last a lifetime. These are the qualities that have made Pioner boats so popular among boaters worldwide. The boats are rotationally moulded in polyethylene – a very robust material – with an added UV stabiliser for longevity. The boats are moulded in one piece and can withstand stresses such as bumps and knocks, extreme temperatures and prolonged exposure to sunlight.

### QUALITY

We obtain Det Norske Veritas Germanischer Lloyd (DNV-GL) certification for our boats, in addition to the CE label. DNV-GL monitors our production process and tests and certifies each of our models to make sure they comply with CE standards. At our company, Cipax, strict procedures govern the entire production process. Coupled with the expertise of our staff, this ensures that Pioner boats are of superior quality.

# PIONER MULTI

## BUILT FOR TACKLING CHALLENGES AT SEA

It's all in the name. The Pioneer Multi has such a clever and versatile design that its applications range from emergency boat to fishing boat to diving boat.

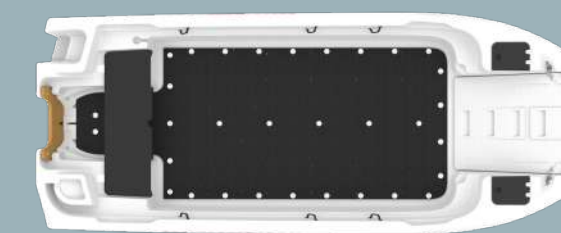

Professional seafarers love this model, which offers a wide selection of optional features and a loading capacity of 1,122 kg.\*

The bow ramp is operated by a rustproof winch for easy embarking/disembarking and loading/unloading. With its simple but extremely seaworthy design, the Pioneer Multi's appeal extends far beyond professional boat users.

\* D classification. Class C 972 kg.

PIONER MULTI

## ON SAKRISØY IN LOFOTEN: PIONER SHOWS WHAT IT IS GOOD FOR

The small island of Sakrisøy is situated in Lofoten, where today Carl Fredrik Gylseth continues the legacy of his ancestors. Fishing is still important, but the island is undergoing development with tourism in mind.

Although it is the younger generation that has taken over parts of Sakrisøy today, the history of the island is largely about fishing, and this part of the legacy lives on. Gylseth has been a fisherman for almost 20 years, ever since he was 17, and fishing is still his main source of income. At the same time, he has several new and exciting projects underway - tourist

accommodation in fishermen's cabins (rorbu), a guest house, car and boat rental.

Gylseth bought the main house on Sakrisøy from his grandmother and has since made huge investments in converting it to a guest house. He promised his grandmother he would maintain the house's original style. He kept that promise, and the guest house opened last year. A stone's throw away from Sakrisøy is Olenilsøya, in the popular Vestfjord. Here, Gylseth runs a tourism accommodation business, Rostad Retro Rorbuer, together with his partner. He is further developing the island,

and is working to complete a brand new marina. It will be tailored for Pioneer boats - in red, of course, to match the traditional colour of the fishermen's cabins.

For work in the rough seas around Lofoten, Gylseth swears by solid, reliable Pioneer boats. That is why red Pioneer boats are rented out to tourists interested in fishing. In addition, he also has a Pioneer Multi for his own use, specially rigged for fishing with, among other things, an electric line pull.

"I must have a boat that can withstand rough conditions, is self-draining and at the same time has a large load capacity. I have had Pioners for many years, and I know that they are sturdy and can take some punishment."

Gylseth owned a Viking before he got a Multi. During an average winter, many kilos of fish are pulled into the boat. "There can be heavy loads out here when you live in the middle of the food source. So the boat must take a lot of weight."

For the small farm in car-free Rostad in the innermost part of Reinefjord, the Multi boat is used to carry heavy materials, furniture and equipment. It is here that this boat really gets to show what it can do; this versatility also helps to explain why the Multi is used as an emergency boat and is a favourite among the professionals.

# PIONER 17 FLEXI

## SPEED, COMFORT AND VERSATILITY WITH GREAT DESIGN

The Pioneer 17 Flexi is designed for the active boater. It is equipped with a centre-mounted console, stainless gunwales and auto self-draining as standard.

A robust and incredibly seaworthy all-round boat with a vibrant design, the Pioneer 17 Flexi is both a work boat and a leisure boat as well as catering for many different areas of use such as diving and water sports. The Flexi also boasts a large floor space that can hold a lot of cargo. On the Pioneer 17 Flexi, we recommend the use of an engine between 50-70 HP for the best possible drainage of water.

## PIONER 17 FLEXI BOAT PACKAGE

**SPECIAL EDITION INCLUDES:** • WINDSCREEN RAIL  
• BACKREST WITH CUSHION • AFT CUSHION SET  
• BATHING LADDER

PIONER 16 EXPLORER

# PIONER 15 ALLROUND

## A POPULAR FAMILY LEISURE BOAT

The Pioner 15 Allround takes over from one of Norway's best-selling leisure boats. Everything that made its forerunner so successful has been carried forward into the new boat, and we are proud to be launching another serviceable, safe and robust Pioner boat in a new design idiom.

This is a versatile boat, providing a safe and comfortable on-board experience, whether used for fishing, family or activity trips, or for transport or work purposes. This spacious 15 footer has plenty of room for 6 people and is robust and seaworthy. High-quality solutions such as the storage area help to keep things tidy, and the boat can be customised with various extras and solutions to meet individual needs and requirements.

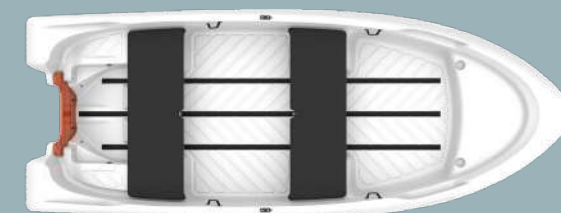

## PIONER 15 ALLROUND BOAT PACKAGE

PIONER 15 ALLROUND

# PIONER 14 ACTIVE

## COMBINING SAFETY AND TRADITION WITH MODERN DESIGN

The Pioneer 14 Active is one of our newest models. It combines classical lines and exceptional ride comfort with a beautiful finish and modern details.

Rope cleats are built into the hull. A useful storage space on the port side accommodates long objects such as boat hooks and fishing rods. On the starboard side there is a space for smaller items such as mobile phones and wallets. The boat also has a battery compartment, space for a fuel tank under the stern seat and additional storage space under the middle seat.

The Pioneer 14 Active is a spacious 14-foot boat for four people. A high freeboard keeps you dry and comfortable even in rough conditions. With good buoyancy and a high deck level, the boat is self-draining and well suited to modern four-stroke engines. Active boaters can look forward to many years of pleasure with this boat.

PIONER 14 ACTIVE

# NEWS! STEADY BY PIONER - ROBUST AND USER- FRIENDLY BOATS

The Steady boats have long been popular both as work and family boats. Now we are including Steady in the Pioneer family with three versatile models: 260 Steady, 320 Steady and 400 Steady. All boats are available in red and dark grey.

Pioneer's Steady series consists, like the rest of the Pioneer range, of solid, robust boats that are rotationally moulded in polyethylene, meaning minimal maintenance. The boats are cast in one piece and can withstand stresses such as shocks, blows, severe cold, high temperatures and sunlight. With a double hull, these are safe boats that give a smooth driving experience and good buoyancy.

All three models in the Steady by Pioneer series are widely used as work boats, for example in fish farming and marinas. They are CE marked and approved by Det Norske Veritas.

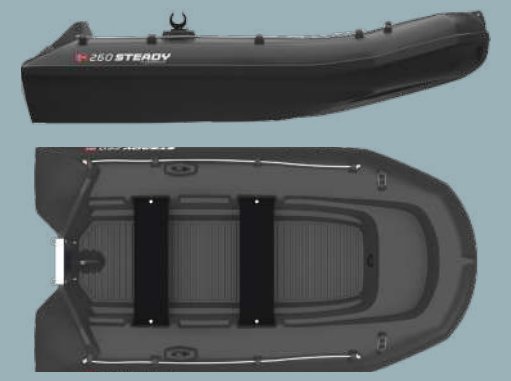

**STEADY**  
by pioneer

## 260 STEADY

### 260 STEADY IS SEMI-PLANING, STURDY AND GOOD TO ROW

Great carrying capacity and stability make this model suitable as a dinghy for adults, as well as a favourite among children and youngsters. The construction provides for high buoyancy, smooth sailing, and safe driving. A simple control console can be supplied as an option. A safety line on the gunnel and fastening to secure the boat during transport are included as standard. A drainage plug is situated in the stern.

WEIGHT	60 kg
LENGTH X WIDTH	254 cm x 135 cm
MAX OCCUPANTS	3
MAX HP/KW	8/6
SHAFT LENGTH	Short
OARS	7"
STANDARD EQUIPMENT	Drainage plug, safety rope
OPTIONAL EQUIPMENT	Console with wheel, control cable, oars
COLOURS	● ● SPECIAL ORDER: ●

260 STEADY BY PIONER

# 320 STEADY

## VERY COMFORTABLE, ROBUST, SAFE AND STURDY

The 320 Steady is cast in one piece and can withstand great stresses such as shocks and blows, severe cold, high temperatures and sunlight without being damaged. The model is drainable, has a large load capacity and superb driving characteristics with a 9.9 HP engine. Aluminium handrails are standard, and, in the stern, there is a large, lockable storage space for fuel and equipment. A steering console with waterproof storage space and room for instruments is available as an option. The console can be easily retrofitted and transforms the dinghy into a mini archipelago workhorse.

WEIGHT	115 kg

# 400 STEADY

## THE MARKET'S MOST USEFUL, STABLE AND SEAWORTHY SMALL BOAT

The 400 Steady is drainable and has excellent load capacity, superb stability, and good driving characteristics. This makes it an ideal leisure, utility, or work boat. Minimal maintenance ensures you can enjoy more time on the water. The construction provides for high buoyancy, and a smooth and safe driving experience. The Steady 400 can easily be upgraded to a tough archipelago workhorse with accessories such as stainless-steel handrails, a steering console with space for battery, windscreen, windshield rail, padded backrest and boat arch with lights.

# PIONER 14 FISHER

## PERFECT FOR GOING FISHING

The model is basically our bestseller, a standard P14 Active. The P14 Fisher has been developed in collaboration with Dag Røberg from Team Colibri. The model has a large casting area at the front, with hatches and storage space underneath, as well as a plate for attaching an electric, bow-mounted motor. It also has an attachment for an echo sounder. The boat provides an excellent, very stable platform for one or two anglers. For spinner fishing, three people can comfortably fish at the same time without having to plan when to move around.

<b>WEIGHT</b>	220 kg
<b>LENGTH X WIDTH</b>	411 cm x 173 cm
<b>MAX OCCUPANTS</b>	4 (D Classification)
<b>MAX HP/KW</b>	25/18,7

## A SUSTAINABLE BOAT LIFE

### AS NORWAY'S LARGEST BOAT MANUFACTURER, WE WORK IN TANDEM WITH NATURE.

It is in everyone's interest that both boat manufacturers and boat owners take responsibility to ensure the most sustainable boating life possible. We take this responsibility seriously all the way - from production to recycling of used boats.

Pioneer boats are made of polyethylene, a sustainable and recyclable material. Both this material and the form of production - where the boats are cast in one piece - produces robust boats with a long service life. Reducing noise and emissions is also important with regards to nature and the environment. Today we see that both supply and demand for electric motors are increasing, and many of our dealers offer electric motors that fit Pioneer boats perfectly.

### WHAT CAN YOU AS A BOAT OWNER DO FOR THE ENVIRONMENT?

The best thing you can do as a boat owner is to take good care of your boat with regular maintenance. This will give you a Pioneer boat that can last many generations. There are also green ways to maintain your boat. Instead of using toxic antifouling chemicals to protect against algae and other marine growth, you can wash the boat at a cleaning site or by hand. If you use chemicals for maintenance and cleaning, a good tip is to use a membrane sheet when on land to protect the ground. Remember that sanding dust and paint residues are hazardous waste and must be delivered to a recycling station.

Did you know that you can even drive the boat in a more environmentally friendly way? Avoid driving at maximum speed and turn off the engine instead of idling.

### CIPAX AS AND PIONER START THEIR OWN RECYCLING COMPANY

Together with a few other players in the plastics industry, we have started a recycling company, Nordic Plastic Recycling, where we will facilitate the recycling of all the products we produce and sell. During 2021, we will recycle up to 200 tonnes of polyethylene, a number that will increase in the years to come. In this way we will ensure that Pioneer boats do not end up as waste, but as new products for future generations.

# PIONER 13

## FOR CAREFREE BOATING

Sturdy, stable and user-friendly – the Pioneer 13 makes boat ownership easy. New boat owners and experienced boaters alike appreciate its excellent seagoing characteristics. Suitable for smaller four-stroke engines, this model can also be used as a rowing boat. The spacious standard model has ample room for four people. Luggage, equipment and the fuel tank can be placed in two lockable storage compartments. Optional extras include railings and cushions.

PIONER 13

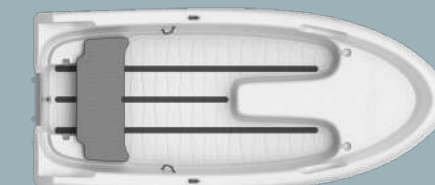

# PIONER 12 MAXI

## TOUGH SAFETY FOR THE FUTURE

The Pioneer 12 Maxi is a modern and safe multi-purpose boat that is just as suitable at sea as it is on a lake. It planes easily and is self-draining, stable, and solid. Pioneer is a market leader in rotational moulding, and this construction method renders the Pioneer 12 Maxi's double hull extremely safe. This is a modern boat in finish and design, with embedded details such as a cup holder, handles and solid openings for ropes. A high freeboard ensures that everyone will have a comfortable boat trip. The Pioneer 12 Maxi is suitable for most activities - fishing, swimming and as a general leisure boat.

# PIONER 10 CLASSIC

## A FUN, EASY-TO-USE, WELL-BUILT BOAT

The new Pioneer 10 Classic is a smart, safe boat which is easy to control and manoeuvre – perfect for children and adults alike. This modern, solidly built model is self-draining, has a simple design and is fun to row.

The Pioneer 10 Classic feels very safe and is suitable for use in a variety of conditions by both younger and more experienced boaters. The boat will accommodate three people and is certified for use with a 9.9 bhp engine. The Pioneer 10 Classic is practical, user-friendly and robust. The finish and design are modern, with small, finely moulded details such as cup holders, grips and solid rope cleats. This model makes a great towing dinghy and is perfect for use at the cottage, be it on the coast or by a mountain lake.

# PIONER TRIO

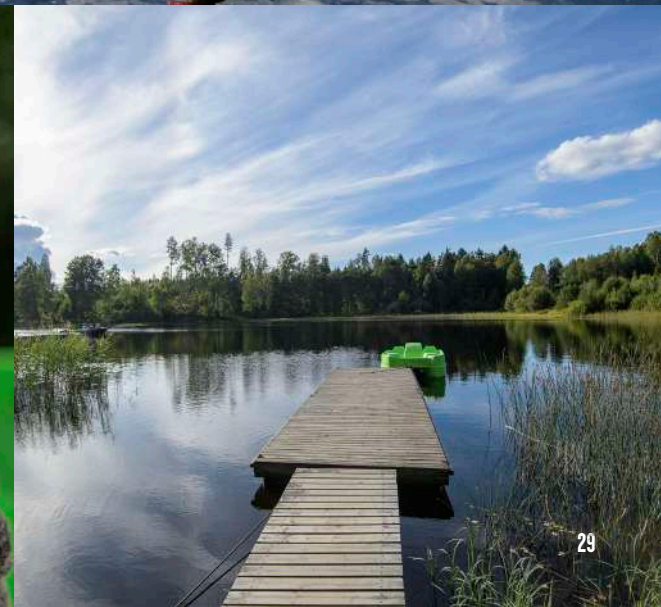

## A MODERN TAKE ON AN OLD FAVOURITE

A fun pedalo with a difference, the Pioner Trio brings the whole family together for shared activities. It has an attractive, modern finish and can seat up to five people. Two of the seats can be folded down and made into a sunbed, and you can retrofit a bathing ladder. The Trio is self-draining.

Anyone who has used a pedalo before will know that they are suitable for every occasion: from sunbathing and relaxation to games and sport, for children and adults, families and friends.

Enjoy the quietness of a gentle walk, let the youngsters play and swim, or use it for a sociable workout. The choice is yours. With its high-quality, Norwegian-built products, Pioner has been one of Europe's largest pedalo manufacturers over the years.
