Cross 55 BR – Introduction

- The new innovative Cross 55 BR is setting the course for all future Cross boats.
- The new model includes a lot of innovative solutions and details, that takes the boating experience to a new level.
- The new modern and stylish look is combined with practical features that make boating safer and more fun.
- The hull of the boat is completely new. The new Cross style also includes black window frames, railings and cleats.
- The new Cross 55 BR is a spacious and stable boat thanks to the wide hull. The driver and co-driver's consoles are placed further than usual, which increases the spacious feeling in the boat.
- The driver's ergonomics has played a central role in the product development work. As a result, we are proud to present a new type of console design that guarantees the best possible visibility.
